### **Provisional Election With Traverse**

Pursuant to Paper No. 0404, mailed April 5, 2004, the Examiner has separated the claimed invention into nine (9) groups. The Examiner contends that the inventions are independent and/or distinct, each from the other, and thus, has required an election under 35 U.S.C. § 121. *See*, Paper No. 0404, pages 2-3. The Examiner has further required election of a single polynucleotide or polypeptide. *See*, Paper No. 0404, page 2, last paragraph.

In response, Applicants elect the invention of Group II, represented by original claim 11 (canceled herein), now represented by new claims 24-57; drawn to the polypeptide corresponding to SEQ ID NO:145 and clone ID HFVAB79.
